Projects

Self-Learning: [Extended learning beyond courses on Github.](#) | sea-queue.github.io

GUI Image Enhancement: Created a GUI image processing application that allows users to load, process, and save images in Java. It also displays histograms after each process.

Marble Solitaire: Applied Model-View-Controller concept on implementing different versions of Marble Solitaire Game in Java.

Maze Game: Designed a Maze Game in Java with a partner that applies minimum spanning tree, Union Find, Breadth and Depth first search.

Tetris Game: Built a Tetris Game in Functional Style language Racket with a partner.

Experiences

University of Massachusetts Boston, Boston, MA

Tutor for Calculous 1 & Data Structures (Java)

Sept. 2019 – July 2020

- Held 10+ hours per week of one-on-one tutoring.

SAA International (*pilot training school*), San Diego, CA

April 2018 – Aug. 2018

Owner Assistant

- Learned about entire pilot training process by joining meetings between the owner and local universities' pilot program or foreign airline managers for cooperation, pilot instructors for students' conflicts, maintenance group for aircrafts' status, etc.
- Helped Chinese student-pilots get involved with local community outside of classes, such as driving them to local farmers' markets, Carving Pumpkins on Halloween, and holding conversations room to room to understand their needs better.

Interests

Kickboxing | Planking | Soccer | Basketball | Rubik's Cube
